Three Dreyer sites offer walk-in treatment for **minor, non-life-threatening illnesses and injuries.** Walk-In Care is open to the public and no appointment is necessary. Visits are much less costly than a visit to a typical emergency room. Radiology (x-ray) and laboratory services are available at all three Walk-In Care sites. Patients enrolled in certain types of insurance plans may be required to obtain authorization from their HMO/PPO, and/or make a copayment for treatment when they arrive.
